

Assembly Instructions

Training Table Cable Management Enclosure

Part Numbers:

5500-3-100-36, 5500-3-100-48

5500-3-100-60, 5500-3-100-72

Training Table sold separately.

Tools needed:

What's included:

Step 1:

Secure right and left ends to the bottom of the Cable Management Enclosure with 1/4-20" screws.

Step 2:

- Detach the modesty panel from the leg kit.
- Remove screws from the rear leg kit that fasten it to the table top.
- Slide the Cable Enclosure around the modesty panel.
- Re-insert screws securing the modesty panel and cable enclosure to the leg kit.

Step 3:

Secure the lock base just behind the grommet opening with the 1/4-20" screws.

Step 4:

- Secure female hinges to the enclosure bottom with the M5x10 screws. Ensure hole openings face toward each other.
- Secure one male hinge to enclosure door bottom with M5x10 screws. Insert should be facing the outside of the door.
- Insert the installed male hinge into the female hinge. Take the remaining male hinge and insert into the opposing female hinge and secure to the door with M5x10 screws.
